With over 800 employees, we manufacture textile cleaning solutions for household and commercial applications under our Flinka Brand and are a worldwide leader in supplying retailers with private label cleaning cloths, wipes and sponges.

For us, sustainability is more than just a word. It describes our way of working and thinking as well as our commitment to consumers, customers and employees. Using only select, sustainable raw materials and cutting-edge technology, we create innovative cleaning solutions for every application.

We hold ourselves to the highest standards and carry certifications to prove these commitments.
